

## Troubleshooting and Defect Fixing

**400:** Bad request {

"message": "Exception while processing REST requests",

"data": [

"Phone Number is required",

"Enter your city",

"Status should be not blank"

]

}

{

"message": "Exception while processing REST requests",

"data": [ "Status should be not blank" ] }

}

{

"message": "Exception while processing REST requests",

"data": [

"Candidate firstName is Not valid. first letter should be in upper case" ]

}

{

"message": "Exception while processing REST requests",

"data": [ "Insert valid email" ]

}

**404:** HTTP method not found{

"timestamp": "2022-07-23T08:28:07.676+00:00",

"status": 404,

"error": "Not Found",

"message": "No message available",

"path": "/candidateDetails/addCandidat"

}

**405:** Change HTTP Method Type (PUT, POST, GET, DELETE)

{

"message": "Please change the http method type",

"data": "Request method 'GET' not supported"

}
